Village of Barrington 200 South Hough Street Barrington, IL 60010	to _____
	from _____
	<b>Happy Holidays!</b>
	

# New Recycling and Refuse Program

In late September and early October, the Village's Recycling and Refuse hauler, Groot, delivered the following new containers to Village residents, one (1) 65-gallon recycling container and one (1) 95-gallon garbage container. Yardwaste containers were not delivered because every resident should already have one. That means that every Village residential household should now have the following three (3) containers:

- One (1) 95 gallon yardwaste container
- One (1) 95 gallon garbage container
- One (1) 65-gallon recycling container

If for some reason you did not receive a new garbage or recycling container, please call the Public Works Department at 847-381-7903, so arrangements can be made for delivery. Over the last month or so, we have had a lot of positive feedback regarding the new containers along with some concerns due to their size. Sometimes a change such as this is a challenge for all of us, and on occasion, it takes a little adjustment and

understanding on everyone's part. We thank everyone for working with us during this change and your comments embracing the new program. The new 65-gallon recycling container alone has made recycling easier and will generate a greater volume of recyclables thus reducing landfill cost and preserving the environment. Any questions or concerns call Public Works at 847-381-7903, Monday through Friday between 7:30 a.m. and 3:30 p.m.

# Remember to Shovel the Sidewalk

When a snowfall occurs, keeping our streets, driveways, and walks clear of snow can be difficult. You may not realize it, but Village ordinances require all property owners to clear snow from the public walk in front of their property. Each snow season, the Village receives complaints regarding sidewalks that have not been cleared, causing hazardous conditions for

pedestrians. Businesses are required to remove any accumulation of 2" or more, within 3 hours. Residences are required to remove accumulations of 2" or more within 24 hours. Ice debris or other obstructions are not permitted to accumulate. Please remember to do your part to help assure the safety of your neighbors and customers by keeping the public walk clear.
